

Print out the egg decorating items on regular paper (you can use cardstock for the egg stand). Cut out the egg stand piece (the clothing). Taking the egg stand, make a circle so that the two ends meet. Use a hard-boiled egg to help you determine where to tape or glue the egg stand together so that the egg rests comfortably in the stand.

Cut out a hat and make a circle so that the two ends meet. Tape or glue the ends together so that the hat can rest on the top of the egg.

You'll find the egg faces on the Easter sticker page.
